----- END OF REPORT -----

Report Parameters

The UCC Revised Article 9 Model Administrative Rules (MARS) provide state filing offices with a set of guidelines for producing a legally compliant UCC lien search report. The search tool used to create this search report was designed to satisfy the requirements under MARS while providing the searcher with increased flexibility.

Flexible search logic generates a more inclusive search report and addresses the inconsistencies in searches performed within states that did not effectively adopt the MARS guidelines. Further, these specially designed broad-based searching features aid in the location of involuntary liens such as Federal and State Tax Liens and Judgment Liens and liens that may not be located in

state databases limited to the MARS guidelines for the reporting of UCCs.
